

Circle Tree Condominiums

461 West Holmes Avenue • Mesa • Arizona • 85210 • Phone (480) 655-0311 • Fax (480) 655-8524

Dish Installation Requirements & Instructions

All satellite dishes are to be installed on the roof of the buildings and are not to be visible from the street. No dishes are ever to be attached to balconies or sides of building walls.

Dish providers must tripod your dish on the roof, there is to be no roof penetration. Any violation constitutes an architectural change and the Association may remove such dish and discard it without notice. Dish's are never to be mounted on parapet walls nor shall cable(s) be attached to any walkway, walkway ceiling or stairwell.

The coaxial cable must be affixed neatly to the buildings in the least obtrusive manner. Wires or cables must not drape, hang freely or be installed through windows. All cable wires or coaxial cable wiring should exit and enter from the rear of the unit.

Dish providers must contract the management office before and after any such installation begins and after its completion for inspection and approval.

Owners are solely responsible for any damage(s) to the roof or any part of the building structure caused by the installation of the dish. If your dish is not currently installed correctly to these specifications, please call your dish provider and have them reinstall your dish immediately.

Sincerely,
Circle Tree Owner's Association

I, _____, owner of lot _____ have read and agree to the aforementioned terms and conditions.
